listing Description

Qualitrain offers industry-leading apprenticeship-funded and commercial training programs in Lean Six Sigma, leadership, and supply chain management. Our courses are designed to enhance people, processes, and business performance. At the Qualitrain Engineering Academy, we develop the next generation of skilled professionals, including welders, engineering operators, and maintenance technicians. We also provide CITB-funded and commercial training for Material Handling Equipment and MEWPs, ensuring safety and compliance. With over 20 years of experience, our award-winning education services are delivered by qualified and experienced professionals. We are dedicated to bringing much-needed economic growth and sustainability. Visit our website to learn more about Qualitrain!
